

STICK SERIES COFFEE TABLE AND DESK

The Stick series which is designed by Michael H. Nielsen and Charlotte Wegener, is an elegant modern series, that fits into both modern or classic family homes. It is beautiful and light in its expression, with the thin profile and the inclined solid legs. You can match your furniture, with both a round or a triangle shaped coffee table or a beautiful desk from the Stick series, and bring a new stylish touch to your home. The series fits both into the small apartment and into the spacious living room.

STICK SERIES

The Stick series which is designed by Michael H. Nielsen and Charlotte Wegener, is an elegant modern series, that fits into both modern or classic family homes. It is beautiful and light in its expression, with the thin profile and the inclined solid legs. You can match your furniture, with both a round or a triangle shaped coffee table or a beautiful desk from the Stick series, and bring a new stylish touch to your home. The series fits both into the small apartment and into the spacious living room. The coffee tables are beautiful two together in different heights. The Stick desk is perfect if you need a little place for your home work, it fits beautifully into a living room, you do not need to hide it in a separate office. The Stick desk is also nice as a free standing furniture.

PBJ
DESIGNHOUSE
EST. 1968

QUALITY FURNITURE SINCE 1968

PBJ Designhouse was founded in 1968 by Per Buhl Jørgensen. Since 1996 the proud design and craftsmanship tradition has been carried on by Morten Svendsen, and the company has invested in large production facilities to follow the strong demand.

DANISH DESIGN

PBJ Designhouse has a tradition of bringing together furniture architects and certified cabinet makers since the start.

This has turned the company into an exponent of Denmark's proud traditions in furniture – when creativity and quality unite, the result reaches new heights.

FURNITURE WITH A CONSCIENCE

All wood used at PBJ Designhouse comes from state approved plantations, where the logs are individually selected and gently harvested.

We often produce furniture with veneer. The reason for this is twofold. It reduces the use of solid timber, thereby conserving natural resources. Secondly, the MDF that the veneer cover is made with recycled wood which is better for the environment whilst still producing a strong and high-quality surface.

All of our timber and veneer are carefully hand sorted so that the grain patterns and colour variations are as harmonious as possible.
