Corna collection

designed by Morten Svendsen

The Corna dining table has a classic, modern design with a beautiful leg detail. It match any home interior from classic to modern.

The rectangular fixed tabletop with solid edges has a smart integrated storage facility for extension leaves at each end and can be ordered with one or two extension leaves matching the tabletop.

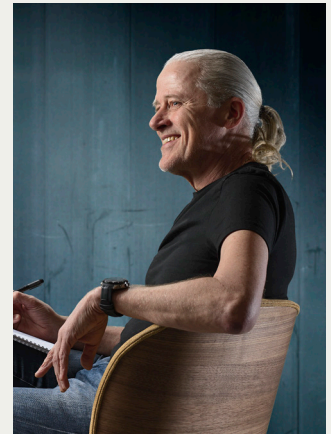

The super elips Corna table is beautiful with the curved shape and modern legs. It opens in the middle with a smart butterfly extension solution, it can not be easier.

On the round Corna table the edgy legs have been turned into 4 legs coming out from the centre, which optimize space for chairs. When the table gets extended the legs splits into two and gives the table another striking look.

The table is available in a wide selection of wooden finishes and hard-wearing laminated finishes in a wide variety of colours.

The Oculus range of sideboards, highboards and display cabinets, can also be ordered with Corna legs, they are veneered with rounded solid edges with mitre joints and rounded, tapered solid legs. Doors and drawers are with nicely recessed oval handles.

All cabinets are also beautifully veneered at the back, which means they can be free standing.
