

# AIR ARMCHAIR

Button stitched version

New 2023

## YOUR COMFORT ZONE.

Craftsmanship, love and honesty are what the furniture-making centre of southern Sweden is built on. All Conform armchairs start out here, where we are urged on by our surroundings to make them last for decades, outlive any trend and match any home. Above all, they are designed to give you a personal comfort zone to return to, whenever you need it.

Quality in every detail. Grace in every sense. Comfort for every body.

CONFORM®

**Jahn Aamodt**  
Designer, Norway

“All design needs to satisfy the desires of the user, the company and the society. Furniture design also needs to have personality and character strong enough for long-term use.”

# LET AIR BECOME YOUR BREATHING SPACE

With its subtle design, Air feels comfortably at home in many different interior styles. Instead of taking over the room, this naturally inviting armchair becomes your own breathing space – where you can always seek refuge when you need it. New for 2023 is the button stitched version seen here, which is perfectly matched by the footstool.
