

# OCULUS SERIES SIDEBOARD-HIGHBOARD

**Oculus sideboard, designed by Morten Svendsen.** The Oculus series consists of veneered cabinets with mitre joints and rounded front edges. The cabinet comes in 7 combinations and 3(4) colours. The doors have self-closing hinges and the drawers have full extension and self-closing mechanism. Inside there are dividers and/or shelves, and the back is fully veneered, so it can be free standing. The sideboards comes with massive round legs, that almost gives the series a flying look. The Multi Highboard always comes with Dark warm grey fenix on the back of the flap. The Glass Highboard comes with 2 glass shelves, and 2 wooden shelves and LED light functionality with on/off sensor and dimmer. All sideboards and highboards comes with adjustable feet. Selected cabinets can be chosen in Smoked oak, with either Smoked oak or Fenix fronts. These cabinets are marked with ## inside this brochure.

## QUALITY FURNITURE SINCE 1968

PBJ Designhouse was founded in 1968 by Per Buhl Jørgensen. Since 1996 the proud design and craftsmanship tradition has been carried on by Morten Svendsen, and the company has invested in large production facilities to follow the strong demand.

## DANISH DESIGN

PBJ Designhouse has a tradition of bringing together furniture architects and certified cabinet makers since the start.

This has turned the company into an exponent of Denmark's proud traditions in furniture – when creativity and quality unite, the result reaches new heights.

## FURNITURE WITH A CONSCIENCE

All wood used at PBJ Designhouse comes from state approved plantations, where the logs are individually selected and gently harvested.

We often produce furniture with veneer. The reason for this is twofold. It reduces the use of solid timber, thereby conserving natural resources. Secondly, the MDF that the veneer cover is made with recycled wood which is better for the environment whilst still producing a strong and high-quality surface.

All of our timber and veneer are carefully hand sorted so that the grain patterns and colour variations are as harmonious as possible.
